PRESTIGIOUS RANKING AND ACCREDITATIONS

PROGRAM OVERVIEW

This program aims to create the next wave of FinTech professionals to take the FinTech ecosystem by storm. Currently, there is a severe shortage of quality FinTech professionals in the FinTech industry, and our students will be poised to make the most of this demand-supply mismatch!

The objective of the course is to increase the agility, flexibility and adaptability of the learner and imparts a problem-solving approach grounded in rational thinking and financial and technological feasibility. The flexibility provided by the program structure enables self-paced learning and maximises the learning efficiency of our student's limited time. After laying rock-solid foundations in all 3 aspects – Commerce, Finance and Technology, the program builds upon them with the help of multiple projects and a plethora of critically acclaimed Case Studies.

The confluence of the three building blocks – Commerce, Finance and Technology is further harnessed to foster an entrepreneurial drive and inculcate a strategic approach that imparts a bird's eye view of problems. Thus, the learner will be equipped to don multiple hats in this continuously disrupted industry. The mantra, "Be Disruption Ready, and Be Ready to Disrupt", would become our students' lifelong asset. This two-year program offers the core course (M.Com.) plus a specialisation course in Financial Technology.

INDUSTRY INSIGHTS

THE DEMAND FOR FINTECH PROFESSIONALS HAS DOUBLED IN THE LAST YEAR.

- The Global FinTech market is expected to proliferate at a CAGR of 23.41% to USD 324 billion in 2026 from USD 113 billion in 2021, leading to an unprecedented rise in demand for multi-faceted FinTech professionals.
- Nearly 1 lakh jobs in FinTech are currently available in India.
- A successful FinTech professional should have in-depth knowledge of the three domains- Commerce, Finance and Technology and must have the agility and adaptability to gauge consumer sentiment accurately with a strategic perspective.
- As of March 2020, India accounted for the highest fintech adoption rate (87%) out of all the emerging markets in the world.
